EDUCATION

Nov2020-May2024	National Institute Of Technology Silchar B.Tech - Electronics and Communication - CGPA : 8.08	College
Jun2017- Mar2019	Maharishi Vidya Mandir, Barsajai AISSCE - Science - Percentage : 91.5%	Senior Secondary
Mar2017	Maharishi Vidya Mandir, Panikhaiti AISSE - Percentage : 95%	School

PROJECTS

Jun 2022	AlgoGeek	/akaza21/AlgoGeek
<ul style="list-style-type: none">Orchestrated the successful launch of an innovative online coding contest hosting platform.a feature-rich experience with a robust ranking system, interactive leader board, collaborative discussion room, diverse practice problems, captivating contests, and multi-language code editor; achieved an increase in user engagement.Technologies and Tools used- Bootstrap, CSS, JavaScript, Django, Python.		
Dec 2021	Vaccine Route	/akaza21/vaccine-route
<ul style="list-style-type: none">Developed and deployed Vaccine Route, an intuitive web-based application that seamlessly tracked vaccination centers.Calculated optimal routes based on real-time traffic data, and facilitated timely arrival at centers; improved vaccination center visit efficiency.Technologies and Tools used- HTML,CSS,Django,Python		
Aug 2021	AnimoBot	/akaza21/AnimeBot
<ul style="list-style-type: none">Crafted a Discord bot utilizing Discord.py, offering users an immersive anime journey filled with captivating insights such as random facts, quotes, and in-depth character, clan, and village details, resulting in an interactive chat-bot experience.Technologies and Tools used- Python,Discord.py		

EXPERIENCE

Jun2023- July2023	Software Developer intern	HostelDevta
<ul style="list-style-type: none">Implemented an innovative chat-bot solution that streamlined customer interactions, resulting in a decrease in average handling time and an increase in customer retention.Acquired proficiency in advanced Machine Learning concepts, including Natural Language Processing (NLP), during internship; incorporated PyTorch and socket-IO technologies to develop a highly interactive chat-bot, driving improved customer engagement and satisfaction levels.		
Dec2023-Jan2023	Web Developer Intern	HostelDevta
<ul style="list-style-type: none">Developed a high-performance web-API using micro-service architecture, resulting in reduction in response time and enhanced scalability capabilities for seamless user experience.Acquired proficiency in Express.js, Node.js, and MongoDB while interning, enabling the development of a scalable and efficient API using micro-service architecture.		

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML, MySQL
Framework: Django, TailwindCSS, React.js
Coursework: Data Structures & Algorithms, OOPs, DBMS
Tools: Git, VS Code, Chrome

SOFT SKILLS

ProblemSolvingSkills
Communication
Leadership
TimeManagement

EXTRA ACTIVITIES

Problem Solving : Actively engaged in solving **Coding Problems(600+)** hosted on online platforms like LeetCode,GeeksforGeeks and Code-Forces.

Music : Guitar and making music.

POSITION OF RESPONSIBILITY

GrowerLabs Part of Management team (2021-2022)
NIT,Silchar:
